CONED: 2.0 Clinical Patient Care

### WEDNESDAY

Join some of our EMS Update 2020 faculty, EMS West staff and local EMS providers as we take a wide-ranging journey through our EMS system, highlighting cases from the perspective of an emergency medical dispatcher, EMT, paramedic and emergency physician.

Unique and complex trauma and medical cases will challenge your assessment skills and assist you in treating patients.

Come prepared to discuss what you would do if confronted with similar scenarios.

This session is free to everyone. You do not have to be registered for the conference. Come up for the evening or stay the weekend.
